# Lama Drama Academy

In this fast paced and ever-changing world we live in, children don't have many safe spaces to express themselves freely. That's what Lama Drama Academy is here for! A drama programme designed for children aged five to sixteen years old, where they can be whoever they want to be.

*Space Proposal*

"The role a teacher plays in the success of a child's life is bigger than most see it to be. I started my drama journey at an early age and unfortunately I had teachers whose method was to break me down in order to build me up. That didn't work for me and many of my peers and this will not be my approach. I will nurture your child's talents, build their confidence and hold them up to a high standard. Whether they decide to pursue acting or not, they will go into the world knowing who they are and having the utmost belief in themselves. To me, this isn't a business, it is a safe space for learning and growing."
